

# NACM NASHVILLE

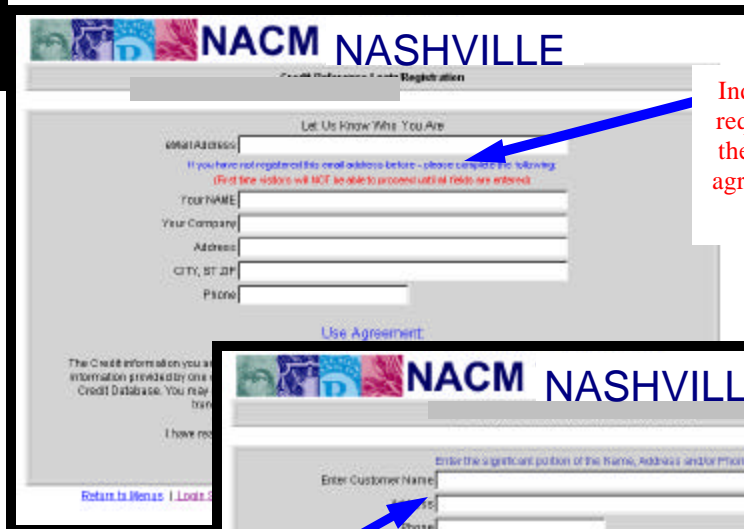

## CREDIT REFERENCE SERVICE

NACM Nashville is proud to announce a brand new service for our members. We are now offering a credit reference service. NACM Nashville can take the workload of giving references off of you or your staff.

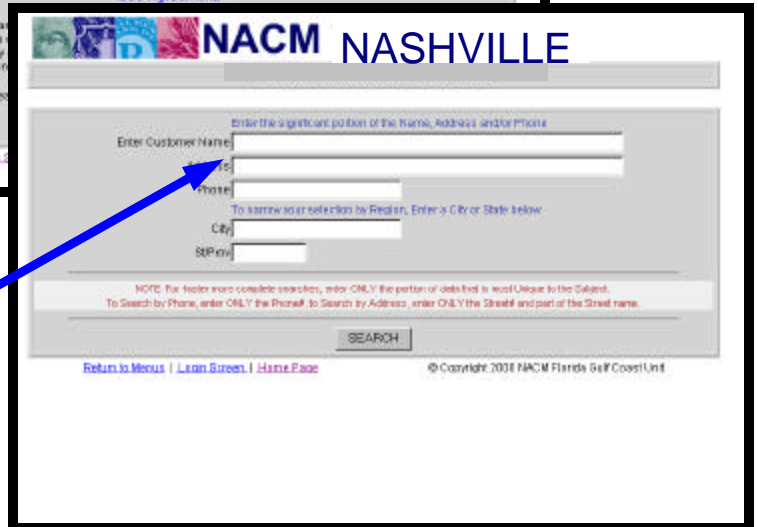

When you sign up for this service, anyone with internet access (member or non member and Trade Groups may elect to eliminate group member participation) can go to our website and receive a credit reference from your company on a specific account. The inquiring company will be required to give complete information about themselves, which we will in turn give to you so you can monitor who is accessing your information and how often. You also have the ability to block access and set a limit as to the number of references pulled each day, by each company. You are charged per inquiry that is made. Please call your customer service representative to sign up today!

Inquiring companies can click on this button on the website. Anyone can inquire, as they do not have to login as a NACM member.

Inquiring companies are required to disclose who they are, accept the user agreement, which will be passed on to you.

The inquiring company then types in what company they are seeking for a reference.
